

The emptying of bilges or black waters could be free in the Marine of Empuriabrava!

The Company **Repsol** has signed a pioneering agreement with the Petrol Station of the Marina Empuriabrava.

The agreement aims to raise awareness of the need of empty the bilge tanks and black waters at the enabled point in the nautical petrol stations. The aim is to avoid the practical, still too usual, of emptying the tanks out at sea.

Since the 1st of June, **for each purchase receipt upper to €150 will be delivered a ticket gift for the emptying of bilges or black waters at the ecological station of the Marine of Empuriabrava**, situated on the petrol station of the port.

This offer is available until the end of stock
